USER SAFETY GUIDE

INSTRUCTIONS ON ENVIRONMENT PROTECTION

Do not dispose of this product in the usual household garbage at the end of its life cycle; bring it to a collection point for the recycling of electrical and electronic appliances.

This symbol on the product means the instructions for use or the packaging will inform about the methods of disposal. The materials are recyclable as mentioned in its marking. By recycling, material recycling, and other forms of re-utilization of old appliances, you make an important contribution to the protection of the environment. Please inquire at your local community administration for an authorized disposal location.

Important Safety Instructions

1. **Read instructions** – All safety and operating instructions should be read before the appliance is operated.
2. **Retain instructions** – The safety and operating instructions should be retained in a secure place for future reference.
3. **Heed warnings** – All warnings on the appliance and in the operating instructions should be observed.
4. **Follow instructions** – All operating and use instructions should be followed.
5. **Water and moisture** – The appliance should not be used near water (bathtub, kitchen sink, laundry tub, pool, etc.).
6. **Heat** – The appliance should be situated away from heat

Important Safety Instructions-Continued

sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.

7. **Power sources** – The appliance should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.
8. **Cleaning** – The appliance should be cleaned with a dry cloth.
9. **Objects and liquids entry** – Care should be taken so that objects do not fall and liquids are not spilled into the device's openings.
10. **Servicing** – The user should not attempt to service the appliance beyond that described in the user's operating instructions. All other servicing should be referred to qualified service professional.

FCC Notice (USA)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Refer to 47 CFR Sec. 15.19.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

FCC Notice (USA)-Continued

communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Refer to 47 CFR Sec. 15.21.

Industry Canada Notice to Canadian Users

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device. Refer to IC RSS 210 Sec. 5.11. The term "IC" before the certification or registration number only means that the registration was performed based on a Declaration of Conformity and that Industry Canada technical specifications were met. It does not imply that Industry Canada (IC) approved this equipment. Refer to Self-Marking 6(f) and RSP 100 Sec. 4.

USER SAFETY GUIDE

Additional Safety Instructions

- When not in use, keep your device in a safe place where it will not be bent or crushed.
- Keep this device away from children. Some small and detachable parts might be swallowed by children and result in harm to them.

About Electromagnetic Interference (EMI)

This device is designed and manufactured not to exceed the exposure limit for radio frequency energy, which is set by the Federal Communications Commission of the U.S government.

The term “EMI” is short for the electromagnetic interference caused by the electromagnetic field generated by electronic devices. In fact, most electrical appliances and devices emit electric and magnetic fields, and most of modern electronic devices are susceptible to the EMI if they are inadequately shielded or designed.

- If you use any personal medical device, such as a pacemaker, please consult the manufacture of your medical device to determine if it is adequately shielded from EMI. Your physician might assist you in obtaining this information.
- Please turn off this device if you are instructed to do so, especially on an airplane or in a hospital.
- Please keep away from medical instruments in a hospital or medical unit while using this device.

USER SAFETY GUIDE

Important Notes on Hearing

Your hearing is very important to you and to us. We strongly recommend you to follow the guideline below in order to prevent possible damage to or loss of hearing.

Hearing experts caution that listening to loud sounds can damage hearing over time. With continuous listening to loud sounds, hearing adapts and will give the impression that volume has reduced. What seems normal may, in fact, be harmful. To guard against this before hearing adapts, set the volume at a low level and slowly increase the volume level until sound can be heard comfortably and clearly without distortion. Damage to hearing is accumulative and is irreversible. Ringing or discomfort in the ears indicates that the volume is too loud. Once a comfortable listening level has been established, do not increase the volume level further.

CAUTION!

If you experience a ringing sound in your ear, lower the volume or discontinue the use of this product.

GETTING STARTED

Thank you for purchasing the JS-P200. Please remove all items from the box remembering to store the box for possible shipping or packing in the future. Read this instruction manual carefully and keep it for reference.

- Multimedia Stereo speaker system for PC
- Integrated audio amplifier
- Easy to install and easy to use
- Powered directly from your PC through built-in USB cable
- Built-in power button and volume control

What's included

- Multimedia Stereo Speaker System for PC
- Instruction Manual
- Warranty Card

LOCATION OF CONTROLS

- Attach the JS-P200 speakers to your PC or other audio device using the inputs shown in the above illustration.
- Press the **POWER** button to turn the speakers on and use the **VOLUME** dial to adjust to a comfortable sound level for best enjoyment of music.

TROUBLESHOOTING

If you experience any of these difficulties in the operation of this equipment and our suggested solution does not solve the problem, or if you have a problem not covered here, please contact Customer Service.

- **No Sound**
 - Check that the system has been turned on.
 - Turn up the volume from your sound source
 - Check that your sound source is working properly
- **Sound is distorted or contains static**
 - Make sure the cables are connected securely
 - Place the subwoofer away from the computer or other electrical appliances which may cause interference.
- **Humming sound from subwoofer**
 - Make sure the input cable is securely connected to the sound source.

SPECIFICATIONS

*TECHNICAL SPECIFICATIONS

- *AMP Output Power: **2W**X2
- *Driver Unit: **2.5** “ 4OHM
- *Frequency Response: **18Hz~20KHz**
- *S/N Ratio: \geq **80dB**
- *Separation: \geq **60dB**
- *Input Impedance: 10K ohm
- *Sensitivity: **470m V**
- *Dimension: L100XW88XH180mm

CAUTION:

- *Do not place the product in the hot damp location.
Prevent from rough handling and wetness
- *Do not open the backboard to avoid electrocution or other accident (IT IS HOT).
- *IN case of fragments or other liquids accidentally spilled into the cabinet, power must be switched off immediately. Do not operate until after a professional examination.
- *Swich off power and take off plug from the power connector when system is not working.
